1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

Claim 6:

Lines 2 and 4, "second" has been changed to --first--.

The changes have been made in order to provide a correction connection between the first resistor (102 of figure 1) and the Schmitt and to place the application in a condition for allowance.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest an analog/digital mode controller which sets an output level of the digital signal line in the analog mode, a transmission gate controller which controls the transmission gate when a signal voltage of the pad exceeds a reference voltage as called for in claims 1 and 9. Therefore, claims 1-17 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).
